Title : Iseries domino solution sales v5r3

Vendors : IBM

Version : DEMO

NO.1 Which of the following are important for properly sizing an iSeries to run IBM Lotus Domino mail and calendaring?

- A. Choice of client and CPW of iSeries model
- B. Number of concurrent users and amount of L2 cache
- C. Size of users' mail files and number of concurrent users
- D. Default or customized mail template and number of user folders

Answer: C

NO.2 An i820 customer is considering IBM Lotus Instant Messaging and Web Conferencing (Sametime) and would like a further explanation of why this is a good product. Which of the following will show them

Instant Messaging and Web Conferencing and its business value?

- A. Call an IBM SupportLine specialist.
- B. Demonstrate IBM Instant Messaging and Web Conferencing Now on a laptop.
- C. Call IBM Direct and ask for the Instant Messaging and Web Conferencing team.
- D. Invite the customer to an online meeting on the Instant Messaging and Web Conferencing iSeries demo server.

Answer: D

NO.3 A Microsoft Windows user mentions that every computer system, no matter which operating system, is vulnerable to viruses. What is an appropriate response that highlights the benefits of iSeries as an IBM

Lotus Domino server?

- A. OS/400 includes built in integrated security management capabilities that protect Domino objects from viruses.
- B. Although viruses can be transported via Domino mail, there has been no known successful virus attack against OS/400.
- C. Because of the iSeries object-oriented architecture, Domino objects on iSeries are completely protected from virus attacks.
- D. OS/400 antivirus software is available that will automatically detect and remove viruses from all

OS/400 program and data objects including Domino objects.

Answer: B

NO.4 An iSeries Lotus Domino customer is considering implementing WebSphere Portal.

They indicate

during a sales call that they have engineering product teams worldwide that have difficulty communicating.

What additional Lotus product should be discussed?

- A. IBM Lotus Instant Messaging and Web Conferencing (Sametime)
- B. IBM Lotus Domino Document Manager Web Page Assembler
- C. IBM WebSphere Development Studio Client (WDS)
- D. IBM Lotus Domino Web Access client with Management Central

Answer:A

NO.5 An i890 Enterprise Edition customer needs to support 10,000 IBM Lotus Domino 6 mail and application

users. What Domino license(s) is/are required?

- A. One Domino Enterprise Server license
- B. One Domino Enterprise Server license for each Domino Partition
- C. One Domino Enterprise Server license for each iSeries processor activated
- D. One Domino Enterprise Server license plus an additional Mail Server license for each processor activated

Answer: C

NO.6 An IBM Lotus Domino 6.5 for iSeries customer wants to add a group of e-mail users who use Linux

workstations. Which client software allows these users to work with their calendars offline?

- A. IBM Lotus Notes Linux Connector
- B. IBM Lotus Domino Web Access with the Mozilla browser
- C. IBM Lotus Notes 6 for Linux client
- D. IBM Lotus Notes with IBM Lotus Enterprise Integrator for Domino

Answer: B

NO.7 An i825 prospect is comparing IBM Lotus Domino on iSeries with Domino on Sun Solaris. Which of

the following favors the iSeries?

- A. iSeries supports more Lotus add-on products such as IBM Lotus Team Workplace

(QuickPlace) than

Sun does.

B. Domino on iSeries can use LPAR to separate Domino Mail and Application workloads.

C. Domino on iSeries allows sharing of resources, supports online backup, and reduces management activity.

D. Domino on iSeries is optimized for the Domino workload.

Answer: C

This document was created with Win2PDF available at <http://www.win2pdf.com>.

The unregistered version of Win2PDF is for evaluation or non-commercial use only.

This page will not be added after purchasing Win2PDF.

NO.8 An eServer i5 520 customer plans to add e-mail, groupware, and collaboration software support for 200 users.

Which of the following meets the requirement?

A. IBM Lotus Domino running on IXS

B. IBM Lotus Domino Web Access and IBM Lotus Workflow, both running on i5/OS

C. IBM Lotus Notes running on i5/OS and all attached PCs

D. IBM Lotus Domino running on i5/OS and IBM Lotus Notes running on all attached PCs

Answer: D

NO.9 Which of the following is a benefit of using IBM Lotus Domino replication?

A. Security protocols are not required when using replication.

B. Less disk space is required.

C. Replication supports a greater number of clients.

D. Any Domino application can be taken offline.

Answer: D

NO.10 A loyal IBM Lotus Domino for iSeries customer expresses concern about the future of Domino and the

wisdom of continuing to use it. The customer has read several press articles and forum postings about

Lotus Workplace strategy. They are wondering if they should migrate from Domino to Lotus Workplace on

their iSeries now. Which of the following is the most appropriate response?

A. IBM does not plan on changing any part of the Domino architecture in the next version of Domino. The

statements in the press regarding IBM's Lotus Workplace strategy and plans are accurate.

B. Lotus Workplace is a strategic IBM product family and if the customer believes it is right for their

business, they can easily migrate their existing Domino 6 mail and calendar users now to Lotus

Workplace 2.0 on their iSeries.

C. IBM is committed to supporting and advancing the Domino messaging and application deployment

platform for years to come. Domino .NSF based applications will be preserved. When the customer is

ready, they will be able to expand the collaborative capabilities of their Lotus investments by integrating

them into Lotus Workplace.

D. IBM's current statement of direction is that Lotus Domino 7 is the last planned version of Lotus Domino

and that customers should plan on migrating from Lotus Domino to Lotus Workplace before the end of

2006.

Answer: C
