Title : Oracle SCM Transportation
and Global Trade
Management Cloud 2021
Implementation Essentials

Vendor : Oracle

Version : DEMO

NO.1 Your customer has US and German orders.

How do you set up a User role in Global Trade Management (GTM) with read/write access for US orders, and only read access for German orders?

- A. Assign multiple User Roles while creating the user.
- B. Access can be controlled by using VPD profile along with External Predicates.
- C. Access can be controlled by using Access Control List and assigned to User Role.
- D. Assign multiple User Role grants in User Role.

Answer: A

NO.2 If a Rate Record and a Rate Offering are configured with conflicting values in the same data elements, how does OTM address this?

- A. Such a conflict cannot exist in OTM.
- B. The Rate Record will take priority over the Rate Offering configuration.
- C. OTM's planning engine will run the solver for both settings, but only consider the least cost result.
- D. During planning, the user will have the option of indicating if OTM should prioritize either the Rate Offering or the Rate Record setting.
- E. The Rate Offering will take priority over the Rate Record configuration.

Answer: A

NO.3 What must you do in order to export data from the CONTACT table, so that the data only includes contacts with email addresses ending with "@oracle.com"?

- A. Create a CSVUTIL file that specifies the "@oracle.com" qualifier.
- B. The CSV utility is useful for managing large amounts of data, but it is not capable of filtering data during the export process.
- C. Use the "Where" clause on the CSV Export screen to specify the "@oracle.com" qualifier.
- D. Export the data first, and then use software such as MS Excel, MS Access, or direct SQL to filter the data.

Answer: D

NO.4 Which one of the following is the correct procedure for setting up and assigning a Screen Set ID to a User?

- A. Create a Screen Set ID and assign it to User.
- B. Create a Screen set ID, assign it to Menu Manager and assign it to User.
- C. Always unassign existing menu and create a screen Set ID, assign it to User.
- D. Create a Screen Set ID and assign it to Domain.

Answer: B

NO.5 What is the difference between a BUY Shipment and a SELL Shipment?

- A. BUY Shipments are tendered to third party carriers, and SELL Shipments are tendered to a company's private Fleet.
- B. BUY Shipments are created when you wish to purchase services, and SELL Shipments are created when you wish to charge a customer for services.
- C. BUY Shipments are created by Planners in a Company domain for their own shipments, and SELL

Shipments are created by Planners in a 3PL COMPANY domain for their clients' shipments.

D. BUY Shipments are created for inbound (vendor Purchase Orders) shipments, and SELL Shipments are created for outbound (company Sales Orders) shipments.

Answer: C
